

Procedure

1. Open Tableau and connect to the Monthly Sales dataset.
2. Import and verify the sales data.
3. Create a line chart showing monthly sales trends.
4. Generate a bar chart for top-selling products.
5. Create a scatter plot between advertising budget and sales.
6. Add titles, labels, legends, and tooltips to all charts.
7. Create a dashboard and place the line chart and bar chart.
8. Add filters and interactive actions for data exploration.
